Regarding the priority information, Applicant has amended the first paragraph of the specification to correct an inadvertent amendment submitted July 17, 2006. Also, Applicant submits a revised ADS herewith to correct inconsistencies between the priority claim and the ADS identified by the Examiner. Applicants submit that the present priority claim is consistent with the priority claim of the filed application pursuant to the relevant MPEP requirements and that a petition to accept an unintentionally delayed claim is not required. If any issue is still outstanding and the Examiner feels that a telephone conference would expedite prosecution of the Application, kindly telephone the undersigned at the below listed number.

Respectfully submitted,
